

libOtx.LookupHash

```
graph LR; A[libOtx.LookupHash] --> B[libOtx.file]; B --> C[libOtx.getValue];
```

A flowchart with three rectangular boxes connected by arrows. The first box, labeled 'libOtx.LookupHash', has a light gray fill and a black border. A blue arrow points from its right side to the second box, labeled 'libOtx.file', which is white with a black border. Another blue arrow points from the right side of the second box to the third box, labeled 'libOtx.getValue', which is also white with a black border.

libOtx.file

libOtx.getValue
